Additional Features

1. Hybrid Synergy Drive

- **Fuel Efficiency:** The advanced Hybrid Synergy Drive system combines a petrol engine with an electric motor, offering exceptional fuel efficiency while reducing emissions. This system ensures a smooth and quiet driving experience, making it ideal for eco-conscious drivers who prioritize both performance and sustainability.

2. Sleek Aerodynamic Design

- **Sophisticated Exterior:** The vehicle boasts a sleek, aerodynamic design that enhances its sporty look while improving fuel efficiency. The carefully crafted body lines, distinctive front grille, and low drag coefficient make it perfect for both urban commuting and long-distance travel, ensuring stability and a modern aesthetic.

3. LED Headlights and Taillights

- **Improved Visibility:** Equipped with LED headlights and taillights that offer energy-efficient, bright lighting to improve visibility in all driving conditions. These lights not only enhance safety but also add a stylish touch to the car's overall look.

4. Smart Key System with Push Button Start

- **Convenience:** The Smart Key System allows for easy, keyless entry and starting of the vehicle with the simple push of a button. No more fumbling for keys—just approach the car, unlock it, and press the button to start. It's perfect for drivers who are always on the go and need seamless access.

5. Toyota Safety Sense

- **Advanced Safety Suite:** The car is equipped with Toyota Safety Sense, which includes features like Pre-Collision System (PCS), Lane Departure Alert (LDA), Automatic High Beam (AHB), and Dynamic Radar Cruise Control (DRCC). These features work together to provide a safer driving experience.

and peace of mind for both the driver and passengers.

6. 7-inch Touchscreen Display

- **Infotainment and Connectivity:** The vehicle includes a 7-inch touchscreen infotainment system, compatible with Bluetooth, Apple CarPlay, and Android Auto. This system keeps you connected and entertained with hands-free calling, messaging, and media streaming capabilities, ensuring a convenient and enjoyable drive.

7. Automatic Climate Control

- **Personalized Comfort:** The dual-zone automatic climate control allows both the driver and front passenger to set their preferred temperatures independently, providing customized comfort for everyone. The system automatically adjusts to maintain the desired temperature throughout the journey.

8. Spacious and Premium Interior

- **Comfort and Quality:** The interior features premium-quality materials, ample legroom, and comfortable seating for all passengers. The spacious design ensures a luxurious and relaxed journey for both short commutes and long trips, making it ideal for families and friends.

9. Eco, Normal, and Power Driving Modes

- **Versatility:** The car offers multiple driving modes—Eco for enhanced fuel efficiency, Normal for everyday driving, and Power for increased responsiveness. These modes allow you to adapt to different driving conditions and preferences with ease, ensuring an optimal driving experience in any situation.

10. Regenerative Braking System

- **Energy Efficiency:** The regenerative braking system captures energy typically lost during braking and recharges the battery, increasing the overall efficiency of the car. This feature is especially useful in city driving, where frequent braking helps maximize the battery charge and reduce fuel consumption.
